**Enrollment period in-Master courses:**

A- and E-modules (AC,OC,PC,TC): enrollment in master courses online in Klips 2 during the first lecture week **from 03 April to 09 April 2023**

**Note: To receive a place in the module, all module courses have to be booked. Registrations from previous semestres become invalid.**

**Additional information for students from a 2nd major semestre**

**Advanced and Experimental Modules Biochemistry**

apply online in Klips 2 during first registration period (1 February to 13 February 2023) **plus e-mail to the examination office with description of your BC knowledge** (see requirements for participation, module compendium)

**P-Module**

registration by mail to the examination office at any time and at least one week before the module starts

necessary registration information: student register number, name, institute, title of module, module coordinator/lab head, P1 oder P2 oder P3-RP

registration for examination one week before the examination date by mail to examination office with information:

Date of the exam, examiner name, student registration number, note P1 or P2 or P3-RP

**Project Modules Offer: see lecture list in Klips**

You will find all lectures of the P modules in Klips in the structural tree „Math-Nat. faculty - Department chemistry“ with the LV-No. 14816.12\* and 14816.13\*
